EXPERIENCE

Baylor University – Department of History | Waco, TX

August 2022 – Current

Office Manager

- Support the department chair, undergraduate program director, and graduate program director with strategic student, alumni, and faculty focus initiatives | alumni engagement activities, student support programs, faculty development opportunities
- Contribute to the development and execution of departmental policies and procedures
- Manage daily administration operations for a department consisting of 20+ faculty
- Oversee departmental operating budget of \$90k annually and various non-operating budgets, ensuring efficient allocation and tracking of resources
- Coordinate and organize 15+ departmental events annually, including guest lectures, seminars, conferences, on-campus faculty interviews, award dinners, and alumni engagement
- Supervise and train a team of 4 student workers and 1 administrative associate, improving productivity
- Implement new travel approval processes for student and faculty travel to enhance overall efficiency
- Support course scheduling and registration activities, including overseeing the production of marketing materials for prospective students
- Streamline procurement and reimbursement processes to ensure collaboration and transparency between all stakeholders (faculty, financial administrators, business managers)
- Coordinate faculty hiring and onboarding procedures
- Manage department website and social media accounts, doubling online engagements since 2022

Baylor University – Institute for Oral History | Waco, TX

April 2018 – August 2022

Administrative Associate

- Support the director of the Institute for Oral History by managing calendars and coordinating meetings
- Facilitate institute operation needs by connecting with facilities, human resources, and Baylor's financial departments to process physical work requests, hiring requests, and procurement requests
- Collaborate with department staff to manage up to 15 student workers and graduate assistants per semester
- Coordinate and promote 3 virtual oral history training workshops per year hosted by department faculty
- Organize and monitor 2 annual and 1 biannual grant application cycles
- Monitor and manage 5 funding sources (operating, nonoperating, and endowments); duties include creating and reporting monthly financial statements using Ignite, processing procurement and expense report requests, and forecasting end of year balances
- Create and manage content and strategy for institute's social accounts; responsibilities consist of developing posts to highlight collection materials and oral history education
- Assist department faculty to build and manage a community of internal and external oral history partners by accessioning 250+ new collection materials and by facilitating interview recordings, equipment loans, department training, and related payments

Projects: *Recording studio project* - research and collaborate with facilities to convert an office to a recording studio | *File management project* - restructure departments cloud file system by examining and implementing new interview collection and transcription processes

University of Texas Medical Branch – Cardiology | Galveston, TX

March 2016 - May 2017

Coordinator II

- Support the director of cardiology and 15 practicing faculty members by managing calendars, processing leave requests, and monitoring discretionary funds
- Execute department led events: fellowship orientation, fellowship graduation, division Christmas party, and external faculty lectures
- Collaborate with recruitment teams to organize faculty searches; tasks consist of arranging candidate travel and itineraries
- Process department's financial commitments consisting of procurement requests, faculty travel authorizations, and expense

reports using Oracle's PeopleSoft

- Monitor 3+ division funding sources including an estimated \$550,000 NIH grant, which consists of researching and procuring lab equipment and material needs for Cardiology Research Lab
- Coordinate and collaborate with university's grant department to submit scientific papers, grant applications, and awards for the cardiology research lab
- Design scientific figures for publication in *Nature Journal* to support cardiology research lab
- Collaborate with clinical research associates to arrange internal documentation like meeting minutes and organizing document retention schedule for routine audits administered by clinical research trial monitors

New York University – Global Technology Services | New York, NY August 2014 - May 2015

Student Office Assistant

- Support office personnel by answering department calls, coordinating luncheons, and processing expense reports

Project: Text-Based Web Alternatives Project – research common practices for text-based alternatives to be used in university's course portal
